ARMISTICE RESOURCES CORP.

(FORMERLY ARMISTICE RESOURCES LTD.)

(A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO FINANCIAL STATEMENTS

PERIODS ENDED MARCH 31, 2007 AND 2006

1. DESCRIPTION OF BUSINESS

Armistice Resources Corp.'s (the "Company") activities are directed toward developing a mining property in Virginiatown, Ontario. To date, the Company has not earned significant revenue and is considered to be in the development stage.

2. CONTINUING OPERATIONS

The accompanying unaudited interim financial statements are prepared in accordance with generally accepted accounting principals ("GAAP") in Canada. They do not include all of the information and disclosures required by Canadian GAAP for annual audited financial statements. In the opinion of management, all adjustments considered necessary for fair presentation have been included in these financial statements. The interim financial statements should be read in conjunction with the company's financial statements including the notes thereto for the year ended June 30, 2006.

These financial statements have been prepared on the basis of accounting principles applicable to a "going concern", which assumes that the Company will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. The company's existence is dependent upon its ability to secure financing necessary to meet its obligations, finance development expenditures and to obtain profitable operations. Should the Company be unable to secure such financing, it may have to, at any time, cease its operations.

Accordingly, readers are cautioned that these financial statements do not reflect adjustments that would be necessary if the "going concern" basis were not appropriate. Changes in future conditions could require material write downs of the carrying value of certain assets.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of the financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. These estimates are reviewed periodically, and, as adjustments become necessary, they are reported in earnings in the period in which they become known.

The carrying values of the mineral property, plant and equipment and the valuation of stock options and warrants are estimated by management based on various assumptions.

Mineral Property and Deferred Expenditures

Mining property acquisition costs and expenditures for plant, equipment, exploration and development, less recoveries, are deferred until the property is placed into production. These net costs will be amortized when the property is developed to the stage of commercial production using the unit of production method based on the expected economic life of the property, or written off if the property is abandoned or the carrying value is determined to be in excess of possible recoverable amounts.

Where the Company's exploration agreements for a property are with a third party, the proceeds of any option payments under such agreements will be applied to the property to the extent of costs incurred. The excess, if any, will be credited to income.

NOTES TO FINANCIAL STATEMENTS

PERIODS ENDED MARCH 31, 2007 AND 2006

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Mineral Property and Deferred Expenditures (Cont'd)

The amounts shown for the mineral property represent costs to date and do not necessarily reflect present or future values except when there is a permanent decline in value or an abandonment of a mining property. Future development of the mineral property, recovery of related costs and the ability to meet financial commitments on existing claims will depend upon the development of commercially viable reserves, capital financing arrangements, mineral market conditions, environmental considerations and general economic conditions.

Asset Retirement Obligations

The Company has adopted the CICA issued Section 3110, "Asset Retirement Obligations". Section 3110 addresses the recognition and re-measurement of obligations associated with the retirement of tangible long-lived assets (Note 5). This standard provides that obligations associated with the retirement of tangible long-lived assets be recorded as liabilities when those obligations are incurred, with the amount of the liability initially measured at fair value. These obligations are capitalized in the accounts of the related long-lived assets and are amortized over the useful lives of the related assets. It is possible that the Company's estimates of its ultimate asset retirement obligations could change as a result of changes in regulations, the extent of environmental remediation required and the means of reclamation or costs estimates. Changes in estimates are accounted for prospectively from the period these estimates are revised.

Plant and equipment

Plant and equipment are recorded at cost. Amortization is being provided for on the declining balance basis using the following rates:

Buildings	4%
Motor vehicles	30%

The Company regularly reviews its plant and equipment to eliminate obsolete items.

Flow-through Shares

The Company has financed part of its exploration activities through the issuance of flow-through shares. Under the terms of the flow-through agreements, the tax attributes of the related expenditures are renounced to subscribers. To recognize the foregone tax benefits to the Company, the carrying value of the shares issued is reduced by the tax effect of the tax benefits renounced to subscribers. The Company recognizes the foregone tax benefit at the time of the renouncement, provided there is reasonable assurance that the expenditures will be incurred.

Stock-Based Compensation

The Company has a stock-based compensation plan, which is described in (Note 7)(c). The Company accounts for all stock-based payments using the fair value based method. Under the fair value based method, compensation cost attributable to options granted is measured at fair value at the grant date and amortized on a straight line basis over the vesting period. No compensation cost is recognized for options that employees forfeit if they fail to satisfy the service requirement for vesting.

(A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO FINANCIAL STATEMENTS

PERIODS ENDED MARCH 31, 2007 AND 2006

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Earnings Per Common Share

Basic earnings per common share are calculated using the weighted-average number of common shares outstanding during the period. Diluted earnings per share is computed using the treasury stock method. Stock options and warrants outstanding are not included in the computation of diluted earnings per share if their inclusion would be anti-dilutive.

Income Taxes

The Company accounts for income taxes under the asset and liability method. Under this method of tax allocation, future income and mining tax assets and liabilities are determined based on differences between the financial statement carrying values and their respective income tax basis (temporary differences). Future income tax assets and liabilities are measured using the rates expected to be in effect when the temporary differences are likely to reverse. The effect on future income tax assets and liabilities of a change in tax rates is included in income in the period in which the change is substantively enacted. The amount of future income tax assets recognized is limited to the amount that is more likely than not to be realized.

Government Assistance

Government assistance received or receivable in respect of mineral properties and deferred costs is reflected as a reduction of the cost of the property and the related deferred exploration costs when the related qualifying expenditures are incurred.

4. SHORT TERM INVESTMENTS

The short term investments represent bankers acceptances bearing interest at 4.1% per annum maturing monthly. The company has investments totaling \$4,221,535 of which an amount of \$3,280,086 is restricted to be spent on qualifying Canadian exploration expenses.

Balance March 31, 2007	<u>10,187,730</u>	<u>\$ 452,019</u>	<u>\$ 0.68</u>

- i) Each of the original 9,000,000 warrants is exercisable for one common share at an exercise price of \$0.80 per share until August 18, 2007 and thereafter at \$1.00 per share until August 18, 2008. The new 1,187,730 brokers warrants are exercisable for one common share at a price of \$0.50 per share expiring in January 2008.

The fair value the warrants at the dates of issue were estimated using the Black-Scholes option-pricing model with the following assumptions:

Expected life of warrants	1-1.5 year
Risk-free interest rate	3.22% - 4.04%
Expected stock price volatility	60% -70%
Expected dividend yield	0%
Weighted-average fair value of warrants	\$0.008 - \$0.15

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore, the existing models do not necessarily provide a reliable measure of the fair value of the company's warrants.

(c) Stock Options

During 2005, the Company adopted a new stock option plan. The purpose of the plan is to provide incentives to directors, officers, employees and consultants of the Company. The maximum number of common shares reserved for issuance upon exercise of the options is 10%. The Board of Directors may designate the recipients of options and determine the number of common shares covered by each option, its exercise price (which may not be less than closing market price of the common shares on the trading day prior to the grant) and its expiry date. The stock option will vest immediately on the date of the grant. The term of the options shall not exceed five years from the date of grant.

ARMISTICE RESOURCES CORP.*(FORMERLY ARMISTICE RESOURCES LTD.)**(A DEVELOPMENT STAGE ENTERPRISE)***NOTES TO FINANCIAL STATEMENTS****PERIODS ENDED MARCH 31, 2007 AND 2006****7. CAPITAL STOCK (CONT'D)**

The change in stock options issued during the 9 month period ended March 31, 2007 are as follows:

	<u>2006/2007</u>	
	Number of shares	Weighted average exercise price
Options outstanding - June 30, 2006	-	\$ -
Granted	2,500,000	0.68
Options outstanding - March 31, 2007	2,500,000	\$ 0.68
Options exercisable - March 31, 2007	2,500,000	\$ 0.68

The following table summarizes information about stock options outstanding and exercisable at March 31, 2007:

Exercise price	Options outstanding	Options exercisable	Outstanding options weighted average remaining life (years)	Exercisable options weighted average remaining life (years)
\$ 0.68	2,200,000	2,200,000	2.31	2.31

\$ 0.68	2,500,000	2,500,000	2.64	2.64

The company grants all employee stock options with an exercise price equal to the market value of the underlying common shares on the date of grant. Compensation costs for all grants under the employee stock option plan have been determined by the fair value method. Compensation expense recorded for the nine months ended March 31, 2007 was \$734,817.

The fair value of each option at the date of grant was estimated using the Black-Scholes option-pricing model.

	<u>MARCH 31 2007</u>
Expected life of options	3 years
Risk-free interest rate	3.95%
Expected stock price volatility	60%
Expected dividend yield	0%

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore, the existing models do not necessarily provide a reliable measure of the fair value of the company's stock options.

9. COMMITMENTS AND CONTINGENCIES

- (a) Sheldon-Larder, the owner of the remaining undivided 25% ownership interest in the mining claims is entitled to the greater of: (i) a Net Smelter Return Royalty of 2% for periods when the price of gold is less than U.S. \$500 per troy ounce; 3% when such price is U.S. \$500 or more and less than U.S. \$800 per troy ounce and 4% when such price is U.S. \$800 per troy ounce or more; (ii) \$1.00 per short ton of ore derived from the properties; (iii) an advance royalty payment of \$21,573.61 per quarter year.

Royalty expense capitalized during the period related to this agreement amounted to \$22,488.

- (b) During the period ended March 31, 2007, the Company issued 6,157,306 common shares on a flow-through basis for gross proceeds of \$4,002,249. The flow-through agreements require the Company to renounce certain tax deductions for Canadian exploration expenditures incurred on the Company's mineral properties to the flow-through participants. The company has renounced exploration expenditures of \$4,002,249 resulting in future income taxes in the amount of \$1,320,743 which has been charged against share capital. As at March 31, 2007 the Company was committed to spend \$3,280,086 on future Canadian exploration expenditures.

NOTES TO FINANCIAL STATEMENTS

PERIODS ENDED MARCH 31, 2007 AND 2006

10. FINANCIAL INSTRUMENTS

Fair Value

The carrying amounts of cash, investments, note payable and accounts payable and accrued liabilities approximate their fair value due to the short-term maturities of these financial instruments. The short term investments are subject to normal interest rate risk.

Commodity Price Risk

The ability of the Company to develop its mining properties and the future profitability of the Company is directly related to the market price of gold.

11. SEGMENTED INFORMATION

The Company is engaged exclusively in mining exploration activities in Canada.

12. RELATED PARTY TRANSACTIONS

One officer is a partner in the legal firm that provides legal services to the company and another is a partner in an accounting firm that supplies non-audit services to the company. The payments made to these firms relating to services provided in the normal course of business at the exchange amount agreed to by the parties during the quarter ended March 31, 2007 were \$37,292.

During the quarter, the Company paid directors of the company for consulting services in the amount of \$36,725 (December 31, 2006 - \$30,400). At March 31, 2007 \$156,277 was owing to directors and related parties (December 31, 2006 - \$180,204).

These transactions are in the normal course of operations and are measured at the exchange amount which is the amount of consideration established and agreed to by the related parties.

13. SUBSEQUENT EVENTS

Subsequent to the period ended March 31, 2007 the following transactions took place:

- i) On April 16, 2007 stock options for 150,000 shares were granted to an employee with the same terms and conditions outlined in Note 7(c).
- ii) A liability was discharged by the issuance of 100,000 common shares.
- iii) A contract for Phase I underground diamond drilling has been signed with Heath and Sherwood Drilling. The Phase I program is planned for 10,000 feet in 17 holes from the 2250 Level. The objective of this program is to test an area above the 2250 Level to the north. This area has a 600 foot drilling gap immediately west of the 185 and 260 Zones that were bulk sampled in the 1990's. Drilling is expected to start during the third week of May 2007.

14. NAME CHANGE

On April 28, 2006 in conjunction with the share consolidation mentioned in Note 7, the corporation changed its name from Armistice Resources Ltd. to Armistice Resources Corp.
